

GIF-H185

Gastrointestinal videoscope – outstanding HDTV imaging for routine endoscopy.

Main features

HDTV image quality

With the new EVIS EXERA III system, HDTV image quality delivers high-definition observation capabilities, even with the slim scope design.

NBI (Narrow Band Imaging)

NBI in EVIS EXERA III 185 series scopes provides twice the viewable distance of EVIS EXERA II 180 series scopes and offers much greater contrast between blood vessels and mucosa. The greatly improved performance of NBI opens up exciting new clinical applications and reinforces NBI's position as the standard of care for GI endoscopy.

Close focus

Close focus enables you to obtain an enlarged, close-up image simply by moving the scope tip as close as 2 mm from the mucosa.

Slim design

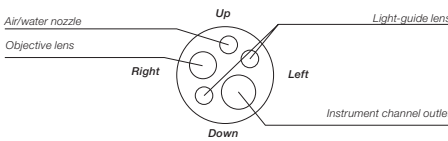

This scope offers an excellent balance between size and performance, with HDTV image quality in a slim 9.2 mm diameter size.

Waterproof One-touch Connector

A new connector design minimises the effort required for set-up prior to and in between cases. In addition, it is fully submersible and eliminates the need for a water-resistant cap and the associated risk of an expensive repair due to accidental immersion.

Specifications

Optical system	Field of view	140°
	Direction of view	Forward viewing
	Depth of field	2–100 mm
Insertion section	Distal end outer diameter	9.2 mm
	Distal end enlarged	
		
Insertion section	Insertion tube outer diameter	9.2 mm
	Working length	1030 mm
Instrument channel	Channel inner diameter	2.8 mm
	Minimum visible distance	3.0 mm from the distal end
	Direction from which endotherapy accessories enter and exit the endoscopic image	

Bending section	Angulation range	Up 210°
		Down 90°
		Right 100°
		Left 100°
Total length	1350 mm	
Compatible EVIS EXERA system	Video system center OLYMPUS CV-190	Xenon light source OLYMPUS CLV-190
